

Custom Built Instrumentation and Process Control Systems

“Your OEM Outsourcing Specialist”

Panels Plus is at your service:

- Complete Turnkey Assembly
 - Sub-System Fabrication
- One Of A Kind Fabrication/Prototype

Our expertise is building complete hydraulic, pneumatic and gas packages along with sub-assemblies, control panels and tubing systems to meet your specifications.

As part of Circor International, we provide the highest quality instrumentation components at very competitive prices; however, we will build your system using your choice of components.

Alternative Fuel Solutions

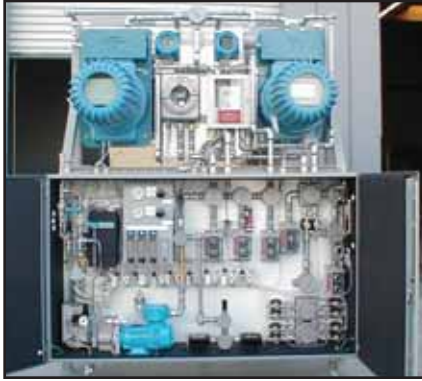

• Fuel Management Panels

• Tubing Kits

• Off Loading Panels

Custom Fabrication

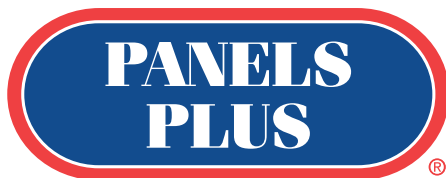

- Chemical Injection Skids
- Analyzer Packages

Subcontract Work

- Quick Turnaround
- Lower Start-Up Costs
